

205 Self Assessment

NAME: _____

GROUP: _____

If you feel you need more space than this, please download the form from the wiki, fill it out and email hit to me.

Please indicate on a scale of 1 (have met very few goals, project is heading for failure) to 10 (meeting all goals, confident project will be a success) your project. If you gave a rating of less than 10, please briefly explain. Such as, do you feel you need more assistance, time, etc, what can you do different to increase the probability of success for your project?

Please rate the ability of the all members of the group to properly share the load and responsibilities. (1-10). If you gave a rating of less than 10, please explain. If you feel that everyone is working hard and equally sharing the load, then that is fine.

This is meant as feedback for the TAs and instructors so that we can make early corrections to any issues. It is not meant to “get anyone into trouble”. However, it is much easier to deal with issues early rather than late. You are not doing anyone a favor if there are issues and they are not addressed, you are only putting the success of the project at risk as well as your grade and that of your team.
